

## Intelligent Airfield Solutions

Helping customers maintain the safest, most efficient and environmentally sustainable runways in the world.

Eagle Aerospace is dedicated to advancing connected and intelligent airfield solutions to help enable the digital transformation of airfield operations. Our turn-key solutions include software, sensors, and analytics that can enhance the safety, efficiency, and sustainability of airfield operations.

### **Big Data, Big Opportunities**

By using sensors and machine learning to capture and assess data pertaining to runway surface conditions and vehicle location, we deliver enhanced accuracy compared to subjective human assessments, helping to prevent potentially dangerous incursions, and capture real-time insight into changing runway conditions without impeding the flow of air traffic. Our airfield inspection software enhances operators' ability to meet safety requirements while improving the accuracy and efficiency of the airfield inspection process through auto-fill of required forms and closed-loop alerts that accelerate response time for any noted discrepancies.

Connected Airfield Solutions

Objective data

Comprehensive situational awareness

Augmenting human capacity with  
Machine Learning

A world leader in innovating advanced solutions for airfield management, Eagle Aerospace engages with industry partners, government agencies and academia to bring these new innovations to the global airport market.

### A Team Eagle Company

Team Eagle Ltd. has been committed to enhancing the safety and operational efficiency in the aviation industry for over 47 years. Engaged in the design, research and development and after-market service for airfield equipment, safety devices, sensors and professional airfield operation management software applications, the Team Eagle Group of Companies remain focused on developing and delivering innovative airfield technology solutions for safer, more efficient and greener airport runway operations. A proud Canadian company, headquartered in Campbellford, ON, Team Eagle sells products directly and through global partners in over 100 countries and growing.
